ACCESSORIES - HYDRAULIC OR PNEUMATIC ACTUATOR

Most Powell Valves can be equipped with Hydraulic or Pneumatic Actuators for automatic or remote opening and closing.

When ordering such valves, please provide the following information:

A. Valve Size and Figure Number
B. Media
C. Media Pressure and Temperature
D. Differential Pressure against which the valve must open and close and Line Pressure if different from differential pressure.
E. Opening or Closing Time Requirements
F. Actuator Media Pressure - Min./Max.
G. Failure Position (open, close, or as is)
H. Special Features (e.g. limit switches, manual override, etc.)
I. Environmental Temperature Range - Min./Max.
